## How we do

*Company has Conventional and semi conventional machinery to produce Good Quality of Products.*

### Machines Like

- Automatic Lathe Machine
- Manual Threading Machine
- Automatic Threading Machine
- Second Operation Machine
- Drill Machine
- Automatic Double Drilling Machine
- Forging Machine (For Hot Forged Components)
- Header Machine (For Cold Forged Fasteners)
- Many Others Various & Special Machines

### Others Special Machine

- CNC for precision manufacturing of components
- VMC for Specialize Components

We also have Special Fully Automatic Machine for Precise measurement Specially Design by Buffoli Company from Italy.

### Laboratories

We have our own in built laboratories for testing of raw material and finished components.

### Measuring Tools

We have all various kinds of measuring tools to simply check the precise measurement of all the components.

## Quality & Certification

An ISO 9001 Certified Company

### Material We Serve

- Brass
- Stainless Steel
- Mild Steel
- Aluminum
- Copper
- Copper Alloys

### Exotic Materials

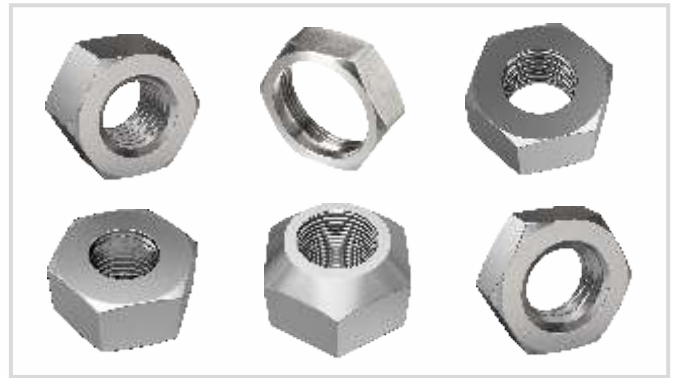

Don't take a chance when buying exotic materials. Exotic materials are generally used in critical applications, and can be very expensive with long lead times. A mistake can be extremely costly. This is why it is important to deal with a company that has the experience and knowledge to handle your specialty hardware. Eltox Metal has a proven history Manufacturing & supplying specialty items and exotic materials.

## Products at a Glance

*we have a complete range of fastener and fixings with fitting parts to serve the world with our world class quality and precise measurements.*

### Fastener & Fixing

### Fittings & Components

### Customized & Specialized

## Sector We Serve

*We Supply our finished and quality products to various different sectors like.*

### Defence Sector

### Railways

### Marine Sector

### Electrical

### Aviation & Aerospace

### Automobile
